

## **MY GIFT IS MY SONG**

Each student will dj the first few minutes of class.

Choose a song (preferably five minutes or less) that you can either play or perform. Arrive at least five minutes early to class to set it up (bring a CD, mp3 file or stream from internet). Your song should be playing as students start to arrive in class.

Prepare (and project) one PPT slide to help describe your musical selection. You should either upload to the "My Gift is My Song" folder on moodle or e-mail this to me (kcolville@armc.com) by 9 am (at the latest) on the day you are presenting.

You are encouraged to be creative with your PPT -- surprise us! Please include the name and artists associated with your musical selection, at least one image, some text inspired by the music, and your name. The rest is up to you.

You will have a few minutes to talk about your music and why you chose it. Your fellow students are encouraged to ask you questions.

Print out a color 8.5 x 11 copy of your slide to use in decorating our classroom.

This is a graded activity. Don't spend a minute more worrying about your grade on this, because that's beside the point. The purpose is to allow the class a glimpse through a small window into your life.
